Subject: Application for Internship Program in Software Development

Dear Hiring Committee,

I am writing to express my interest in the Software Development Internship Program at GIG Innovation and Consultancy. I am currently pursuing my Bachelor's in Information Management (BIM) at Shreeyantra College, Damak-9, Jhapa, and have just entered my 5th semester after completing the 4th semester examinations.

Throughout my academic journey, I have consistently demonstrated dedication and strong performance, achieving SGPA scores of 3.9 in both the 1st and 2nd semesters, and 3.96 in the 3rd semester. These results reflect my commitment to learning and my ability to grasp technical concepts effectively.

Although I am a beginner in software development, I am eager to expand my knowledge and gain practical experience in a professional environment. I have acquired foundational skills, which I have outlined in my CV, and I am confident that with guidance and exposure to real-world projects at GIG Innovation and Consultancy, I can grow into a capable contributor.

I am particularly drawn to your organization's reputation for fostering innovation and providing opportunities for aspiring professionals to learn and collaborate. I believe this internship will not only enhance my technical skills but also prepare me for a successful career in software development.

I would be grateful for the opportunity to contribute to your team and learn from experienced mentors at GIG Innovation and Consultancy. Thank you for considering my application.

Sincerely,  
Garima Thapa
